Public Submission by Keryn Hull.

Hi, I'm Keryn, I live in Brisbane and am a grandmother.
Healthcare should be provided to babies born alive during an abortion because the child is a live human being that has a right to live and have a destiny.
This is the most fundamental responsibility for the Government to protect the vulnerable.
The ramifications of failing to pass this legislation is crucial otherwise we are just like some barbaric society like the ones that used to practice child sacrifice. Our nation will value human life less and less.
Please pass this legislation so little babies are not just left to die with no one to help them. What suffering for hospital staff to have to allow this to happen without intervening!

Sincerely, Keryn Hull
