Public Submission by Joe Nardizzi.

Attention The Queensland Government legislators. I am a concerned Australian citizen from Perth WA. The Queensland government must pass protective legislation to living aborted babies as a test of our civilization. I most strongly and respectfully submit that failure to pass a protective law would significantly diminish our civilization. An appropriate analogy is the Dr Mengels treatment of Jewish and other prisoners in the death camps. Surely it is plain to all to understand that a baby who survive the horrors of an abortion should be sacrosanct and protected by us at law. These babies once born alive are the most vulnerable future Australians citizens in our society totally deserving our protection and support. The necessity to pass such protective legislation is critical to our society and we will be judged by future generations by such action. I respectfully request The Queensland government to pass this critical legislation quickly to save as many as possible future Australian citizens.

Sincerely, Joe Nardizzi
