Public Submission by Rob Roy.

If this legislation is not passed, the government will display its pro-death colours and demonstrate the passionless, heartless premise in which it operates. I therefore urge the committee to recommend the Parliament to pass this legislation to demonstrate that it really does care for the most vulnerable in our society. My name is Rob. I am the father of four, grandfather of eleven and great grandfather of three living on the Sunshine Coast. I am a retired School Principal who valued the life of every child under my care. Despite the current misguided societal notion, all life is sacred even in the womb. What a disgrace that we, as a so-called civilised society, are at least complicit if not barbaric that we should consider it civil and appropriate [REDACTED]. How inhumane, uncivilised and callous have we become? Animals would not behave in such a disgusting manner. When a government refuses to protect society's most vulnerable, it has lost all credibility with the electorate and should resign. Governments are elected to represent all of our citizenry, not just a vocal, selfish group who have no respect for a child's life.

Sincerely, Rob Roy
