Hello my name is [REDACTED] and [REDACTED]. I am an ex nurse and now work for a charity. Providing healthcare to babies born alive as a result of an abortion is the most humane action that needs to be implemented as well these babies are living breathing human beings and have a right to be given medical care the same as a new born baby that has been born alive under normal delivery circumstance. The Government has a fundamental responsibility to protect the innocent and the most vulnerable amongst us. If the Government fail to pass the legislation needed to give life sustaining medical care to these innocent and vulnerable babies then this is a very tragic injustice to these babies who have a right to life but are denied that right by a Government that prefers innocent and vulnerable babies to die without care and medical support rather than be a Government that supports legislation that values all life and allows the most vulnerable to be given the same right to care and life that all do. The Government's decision on this will make my decision at the ballot box... I urge the committee to recommend that the Parliament pass this legislation.

Sincerely, [REDACTED]
