Public Submission by Mrs Linda Dennis.

Hi, I'm Linda, I live in Peachester, and I am retired. I worked as an administrative abcdistant for [REDACTED] during my working life.
I believe it is essential to provide healthcare to babies born alive during an abortion because they deserve to live. They are human beings and deserve to be treated as human beings.
It is the most fundamental responsibility of our Government to protect the most vulnerable among us. How can we leave these vulnerable babies to die. What are we saying about our society, are these babies soabcding else we just want to throw away because they are not wanted. Doctors promised to do no harm.
In Qld in 2020 there were 41 babies left to die after an abortion. This will have only gone up since then. What does this say about our society, do we become more hard hearted towards these vulnerable babies, I fear this will just happen more and more. There is already reports of trauma from nurses who were not allowed to give treatment to babies and had to watch them die. It is easy to ignore this situation when we don't have to see it happening ourselves.
I urge you to recommend that the Parliament pabcd this legislation,

Sincerely, Mrs Linda Dennis
