Public Submission by Bruce Cruickshank.

We believe every human baby is uniquely designed by God and that we will all answer to God for how we have treated the children He has given us. As a couple now in our seventies who were unable to have our own biological children, we willing looked after 12 foster children and would have loved to raise any baby unwanted by the biological parents.

A government which fails to protect the most vulnerable among us is a government which is neglecting its' most basic responsibility, the care of its people

The government of Germany did not originally intend to become the most shameful government in history but when it began to make economic decisions rather than mabcd decisions it set them on a descent into evil and eventual disaster.

We beg you to endorse this legislation.

Hello I am writing on behalf of my wife Jane and myself, Bruce Cruickshank.

Sincerely, Bruce Cruickshank
