Public Submission by Stuart Hold.

Hello, I am retired and live in Brisbane.
All children need to be protected regardless of the circumstances surrounding the delivery of the child. There needs to be no differentiation between a child who survives an abortion or any other.
The most vulnerable need absolute protection as a fundamental right for their safety. Any child that is delivered alive should be protected by statutes of Law ensuring that any neglect or deliberate action to cause a child to suffer or die should suffer criminal prosecution. In the case of death the persons responsible should be prosecuted for the same.
All systems of medical treatment, including abortions, should be stringently adhere to a higher standard of ethical behaviour and practice. As the Government is the Legislator, it is incumbent on them to make sure that these little ones are protected or suffer rejection at the polls, in a few short months
I urge the committee to recommend passing the legislation proposed by the Katter Party.

Sincerely, Stuart Hold
