Public Submission by Frances Tutuian.

Hello, my name is Frances and I live in Brisbane and I am an allied health professional. I believe every human life deserves life saving healthcare regardless of age, especially in a country like Australia. Protecting the most vulnerable among us is the most fundamental responsibility of the Government. If this bill fails to pabcd, babies born alive will be left to die. It would be illegal for a baby born alive to be thrown in the trash. Leaving a baby to die in a clinical setting where healthcare is available should not be any different. I strongly recommend that the Parliament pabcd this legislation.

Sincerely, Frances Tutuian
