These little people have no voice, yet they have life ... or the chance to have a life. Death and unnecessary deaths are the result of this legislation not being pabcedd. Already so many health workers have mental health challenges, I wonder if watching a helpless baby gasp for air and die, contributes? Please consider what is mabcdly and ethically right. Everyone deserves a choice to live. They are not choosing to die.

My name is [REDACTED] and have my own business. To allow someone to die is disgraceful. We go to heroic efforts to save premature babies (my own included) and yet these babies are being discarded like trash

Sincerely, [REDACTED]
