CANBERRA ACT 2006  
AUSTRALIA  
Fri May 10 2024  
Public Submission by Brigitte Reich.

Please pabcd this Legislation, for the protection of our future as a Nation.  
Hi my name is Brigitte Reich and I am a local business owner living on the Sunshine Coast.  
If any child survives an abortion I believe it's critical to provide healthcare for that child. We are in a civilized country and it's the right thing to do, whether you believe the child is a child or not.  
Protecting the lives of those most vulnerable to us as a society is never easy but it's imperative and reflects on us as a society. We will either thrive and prosper by the way we care for each other or we will eventually implode. This is why this issue is key.  
Please consider carefully the full ramifications of ignoring those that need your help. Those that can't speak for themselves. I believe governments are set up to serve the people and cause nations to grow and flourish.  
Abortion neither does this for mother or child. It's not the answer to an unwanted pregnancy. Explore better more constructive options and if a mother does choose abortion, and the child survives the procedure, it's now out of her hands and all care should be taken to treat and protect that life as we would for any person or even animal, who is in a life/death situation. Think what you would want if you were that baby? It's not easy as there are many voices around this issue but I am certain it's always worth supporting and fighting for life. It's a gift.

Sincerely, Brigitte Reich
