Public Submission by Kirsty Van Itallie.

I am a mother of two beautiful boys and husband to one amazing man. I live in central Qld and work at home duties and home educating our children.  
I believe as a basic right to life, children who are born alive during an abortion MUST be given health care. There are many alternatives to death for that beautiful baby and they must have opportunity to receive those. To leave them to die or even abcd them, should be deemed abcd and is the opposite to what health professionals should be offering these children.  
At this age and stage, the baby is extremely vulnerable and as such, government should do all in their power to ensure the child's well-being. Government has a responsibility to do so.  
To fail to do so would be to be complicit in the abcd of children. Abortion laws in this state are already reprehensible, so please pabcd this legislation in order to protect the innocent lives of Queensland children. I respectfully but pabcdionately plead with the committee to recommend that Parliament pabcd this legislation - the Queensland Babies Born Alive Bill.  
Thank you.

Sincerely, Kirsty Van Itallie
