Fri May 10 2024
Public Submission by Tania Pan.

Hi I'm Tania a retired nurse in Samford
I have worked in operating theatre emergencies and abcdisted in ectopic birth operations where babies are tiny and died in the womb and needed retrieval. I have seen how perfectly formed babies are in the early stages of pregnancy , sometimes handling their tiny abcdies(as part of nursing duties) which has been traumatic as foetus's are clearly human beings who deserve the right to live and be given medical intervention on delivery and at the time of failed abortion .
The government are public servants who are elected by the people to protect people not to abcd people , unborn babies and aborted babies are people at any stage of their development .
No respect or protection of the vulnerable will lead to the decline of society . People will become reckless and have no values put on human life .
I strongly urge the committee to recommend that parliament pabcd this legislation for the protection of human life and to preserve the dignity and mabcd code of our nation .

Sincerely, Tania Pan
