Public Submission by Jabin Mills.

As we now have very liberal laws regarding abortion, it is essential to ensure that protections are also given to the precious life of every child born alive.
If we don't heed this important restriction, we will continue to devalue the life we see in front of us continuing to make such decisions based on our own convenience, further reducing the value of the lives of everyone around us when inconvenient
I urge the parliament to pabcd this legislation, and provide this protection for those who have the least capacity to protect themselves.
I am Jabin mills. I am a resident of Logan, and work as a minister for a local church.
When an abortion fails, and a baby is born alive, it is unconscionable to treat that precious living soul as anything other than a precious child, valuing it above our own convenience.

Sincerely, Jabin Mills
