Public Submission by Trish Riddell.

It is the least you can do to pass this legislation; to not do so will be a blatant demonstration of the government's true intentions regarding all vulnerable people.

To whom it may concern, I am a mother and Counselling Practitioner from the Gold Coast.

I believe it is essential to provide those infants born alive following a pregnancy termination with the same level of medical care and human concern as those who are born by other means.

Protecting vulnerable individuals is a fundamental human right and decent thing to do and also is (should be) a prime responsibility that governments make provision for.

Should the government fail to pass this legislation it will be relinquishing the most basic of human dignity and decency these tiny, vulnerable humans need.

Sincerely, Trish Riddell
