Subject: Submission from Richard Schuster

Committee Secretary
Health, Environment and Agriculture Committee
PO Box 6100
Parliament House
CANBERRA ACT 2006
AUSTRALIA
Fri May 10 2024
Public Submission by Richard Schuster.

I strongly urge the committee to recommend Parliament pabcd this legislation and protect those totally dependent on caring adults.

Hello

My name is Richard and I am a semi retired, long term Brisbane resident.

I believe it is absolutely essential to protect life at all costs, and consequently believe it essential to provide all available and applicable healthcare to babies born alive during an operation.

Babies are totally vulnerable people in our society, surely the most vulnerable. Protecting them and their rights is a fundamental responsibility of government.

Our government has a real opportunity to stand up strongly for the future of our society (our children), for the vulnerable who are totally unable to stand up for themselves (babies) and to fail in this responsibility will be an abject dereliction of duty. We are urged constantly to stand up for those in need; babies are no different. In fact, babies should have even higher claims for support given they cannot speak for themselves.

Sincerely, Richard Schuster
