Public Submission by John Ilies.

So, I believe it is essential that health care providers should provide the best care to babies born alive as a result of abortion.
If this legislation is not passed then all humans have something to fear from a selective healthcare system. I urge the committee to recommend that the Parliament pass this legislation.
Hi, I'm John Ilies, I live in Brisbane, and I'm working in the construction industry.
I believe that no human being should be refused medical care and left to die. It's the government's job to protect the most vulnerable and helpless human beings.

Sincerely, John Ilies
