Name Withheld Submission by [REDACTED].

If the Government fail to pass this legislation, aborted vulnerable babies born alive receive no health care and die without basic human comforts.
All aborted babies born alive will not receive basic equal rights to life or access to health care.
Vulnerable newborns will be discriminated against and not provided with medical care they need.

As a concerned citizen and advocate for human rights, I strongly urge the committee to recommend that the parliament pass this legislation.
Dear Committee Members, I'm [REDACTED], I live in [REDACTED]. I'm a retired teacher and mother of 5 adult children including a son with Spina Bifida.
I believe vulnerable aborted newborns deserve the same basic human rights as any other human being.
It is inhumane to leave newborn babies to die without at the very least, palliative care.
If palliative care is the only option in the circumstances, the newborn can leave this world with some form of pain relief.
The most vulnerable human beings in a society should be protected and this is one of the basic responsibilities of a democratic government as well as of the whole community.

Sincerely, [REDACTED]
