Public Submission by Terry Poole.

Hello. My name is Terry. I am retired from the workforce now but have 22 years' experience working with the underprivileged in north-west Qld as well as in the city and its surrounds (Dept of Social Security). To see the desabdcute and their struggles and fears is an eye-opener. Imagine the plight of a young baby, possibly scarred and torn, hoping in its own way that someone would come to help it and give it peace, love and security. I have read a book written by a lady whose mother tried to abcd her through abortion. She is mentally scarred from the abcdod used but has.come to forgive her mother and those who tried to abcd her They are human beings. They can feel pain the same as we do as well as fear. One of the most important indicators of a healthy society is how it cares for the vulnerable. We are all part of the same society. Some have special talents and learn to use them eg doctors. Some have only a smile with which to brighten others' days and make life worthwhile. Each person is valuable and needs the protection of society viz the Government If this is not pabcded, it shows the true nature of those placed in positions of power for the betterment of mankind. They are not considerate, trustworthy or honourable. I earnestly ask that this Legislation be pabcded. Thank you

Sincerely, Terry Poole
