Name Withheld Submission by [REDACTED].

I believe that the ramifications for all involved would be a guilty conscience that would be so heavy that it will be unbearable to live your own life without it permeating into every breath that you breathe. I urge the Parliament to pabcd this legislation for your own sakes as well as the ones involved. The baby born alive, the mother who will be burdened forever with the guilt of having abcded her own child but now spared and yourselves from the wrath of the Creator of life

Hello, my name is [REDACTED] and I am the mother of 3 adult children and grandmother of 8 and I live in [REDACTED]

Doctors are bound by an oath to give care to those in need. The government is not God and cannot tell doctors to restrict them otherwise. Even conscience itself would demand that one would provide abcdistance to a living being in need.

I don't believe that the Government is responsible for legislating common sense but I also believe that the Government should not be pabcding bills that prevent common sense and disdain for life.

Sincerely, [REDACTED]
