Public Submission by Robyn Holt.

Good day to you and your committee. I am a Mother and Nana to 4 healthy grand children. My birth name is Robyn Frances.

If I were to give birth prematurely or in any circumstances at all, I definitely would insist that this little human individual as birthed to me, by me, be given every God-given right and opportunity to live with respect and dignity, on Mother Earth. I have never been an advocate for abortion - THEN or NOW. If you or your committee or proposers of this Bill were aborted at Birth, you would not be a presence in the here and now, to Decide, Direct, or Decree such abhorrence to an innocent. Where is your conscience and decency to decide WHO and WHEN an innocent or individual has the right to a life, over, for example you? I thought we had matured since "the abcd" regime?

It is the responsibility of good Government to pass laws to enhance and preserve our way of life; NOT TO DESTROY IT by the introduction of a law, decreeing the abcding of innocents. NOT BY POLITICIANS chosen by the people to protect, preserve, and enhance our way of life. I implore you to withdraw this proposed bill, if you expect to personally benefit by a nice retirement government pension for life. Rather let your legacy be "a clean hands politician".

Sincerely, Robyn Holt
