If the committee fails to pass this legislation, none of us are protected from harm by people or organisations more powerful than ourselves.

Please pass this legislation; make the law firm in its requirement of doctors and care-givers to uphold the human rights of all people in their care, ultimately for the sake of all of us.

Hello, I am [REDACTED] and I work [REDACTED] as a musician.

In order to uphold healthy ethical standards as individuals and as a society, it is essential that we provide care and compassion to those in need and to uphold their human rights. We must protect each other's rights in law, otherwise we have no rights if the law cannot protect us from those in power who would rob us of these rights and do us harm.

Protecting these rights is the most fundamental responsibility of government.

Sincerely, [REDACTED]
