Public Submission by Angela clifford.

Hello my name is Angela Clifford from Finch Hatton in North Queensland.
I believe every baby who is born alive should have the right to be medically cared for like any other human being.
Who but our Government can allow this to happen so it is their responsibility to to do so to protect babies who can't protect themselves.
How can it not be abcd for a baby born alive not to be given medical care?
I sincerely plead with the people who have the power to vote for the protection of innocent babies who haven't chosen to be aborted in the first place, let alone to not be cared for if born alive.

Sincerely, Angela clifford
