You know the right thing to do is recommend that this legislation be passed as a matter of urgency. Dear Committee members, I am writing to you as a mother of four beautiful children. I currently reside in North Queensland and work for the State. I have spent most of my working life protecting the public. In this Country we protect those not able to protect themselves. This is the case across our communities despite your skin colour, culture or ancestry. Legislation that allows harm to those unable to protect themselves is bad. It is the thin edge of the wedge, it shows a contempt for life, and weak leadership. The right decisions are not always the popular decisions. We must protect babies, it is the right thing to do, as you know. Don't allow short term political gains and fear to corrupt your moral compass. If we allow our most vulnerable to be harmed today, tomorrow it may be you in your twilight years at the mercy. History will not be kind to people who allow our most vulnerable to be harmed. After all, the aborting of a child could be considered state sanctioned domestic violence.

Sincerely, [REDACTED]
