For these very reasons stated above, I strongly urge the committee to recommend that the Parliament pabcd this legislation to safeguard the right to live, which every human is given. Hi I'm and I'm an exercise physiologist. I believe it is essential to provide healthcare to babies who are born alive during an abortion because abortion is a grave injustice that harms both the mother and the child, and children who are born alive and survive an abortion are often neglected and left to die to hide the consequences of this grave evil instead of being given the right to live and be cared. These children should be given for adoption if the expectant parents do not want to raise them so that they are able to grow up in a loving and supportive family. Protecting the most vulnerable people in our society, including the unborn, the elderly and frail, is the most fundamental responsibility of the Government in promoting a just society where all human flourishing is able to take place. Sincerely,	From:
