Public Submission by Paulus Maria Ruhl.

My Name is Paul Ruhl. I reside at Glenella Mackay Qld and I am retired.
Babies Born alive are living persons and they are enabced and need critical health care,the same as any Person who is in an emergency situation (Life or Death) following a car accident. The latter receive critical health care to preserve life from the Paramedics and Nursing Staff.
All members of our Society have a fundamental human right to life and babies born alive being members of Society are included and as such deserve and are part of this right to live. The Qld Government in not respecting this right, and who should govern and care for all the people,will have failed in their responsibility in not caring for these, its most vulnerable citizens.
In the event that the Amendment Bill (Live Births) is not legislated then it would show that the Qld Government does not recognize its citizens equally, and as such then discriminates against those citizens who are vulnerable, these ones who in fact the Qld Government should stand up for and protect.
I urge the committee to support and recommend that the Live Births Amendment Bill be adopted thus ensuring that all of Qld citizens receive the same and equal Human rights.

Sincerely, Paulus Maria Ruhl
