Public Submission by Bev Faulks.

I urge the committee to recommend that this legislation be passed by parliament.

Hi, I'm Bev, and I live in Brisbane, and am a mother, grandmother, athletics coach and concerned citizen of Qld.

I believe it is essential to provide healthcare to babies who are born alive following an abortion. These babies need to have every legal right to basic life care and compassion as it is the right of every living human being. To deny healthcare to any living human is barbaric.

It is the government's fundamental right to protect every living human being, especially the most vulnerable. The ramifications of the government failing to pass this legislation is catastrophic. A society who does not care for its most vulnerable is a society declining in all its moral standings and is doomed to deteriorate to a disfunctional level.

Sincerely, Bev Faulks
