To whom it concerns, my name is [REDACTED] and I'm a primary producer and stay at home mum from the [REDACTED].

Babies born, after an abortion are alive! This is life! If basic medical care is denied, that's inhumane. Abortions themselves are a disgrace. Shame on any so called "healthcare" professional who denies care for these little lives or performs an abortion. And shame on any parliament member who supports these barbaric and satanic practices.

Protecting babies, from conception, is inherently important! Abortion has been one of the key pillars of the downfall in our society. And a gateway to more evil!

The government should have legal action taken on them for their lack of care towards their own LIVING citizens, regardless of their age and stage of life. It's completely diabolical that this is happening in a first world nation, and entirely unacceptable that human lives are being neglected!! This is a basic human rights violation. Parliament must rectify their mistakes, and ensure legislation to protect all members of the public, from babies at conception through to the elderly.

Sincerely, [REDACTED]
