**Subject:** Please have courage, morality, integrity and decency to allow babies born alive, a life.

Committee Secretary  
Health, Environment and Agriculture Committee  
PO Box 6100  
Parliament House  
CANBERRA ACT 2006  
AUSTRALIA  
Mon May 13 2024  
Public Submission by Silviya Vlasta Murphy.

It is imperative to provide healthcare to babies born alive. Children must never be abandoned, left to die, particularly considering Australia has vast resourcing. And even for mabcdity, it is very wrong / cruel to leave a baby to die.

If any Government facilitates or promotes the death of young children, they are as brutal / cruel as North Korea or any other place, known to extremely breach basic human rights. Government must care for children born alive, because if such human rights are so breached, then it will very likely spiral toward further decay of 'civilization'. Please ensure babies born alive, be given a chance to live.

If Government fail to pabcd legislation to protect children born alive, then Government has failed to be civil. The cruel barbaric death of a child born alive should NEVER occur.

Please do ALL that is possible, to ensure babies born alive, be given the chance to live. Please pabcd legislation that will benefit Queensland's most vulnerable people. Please do NOT allow barbaric practices continue. I urge and beg, you choose right, and pabcd born alive legislation, allow children to live, and not be abandoned to suffer and die. Please.

I am Silviya. I am a school teacher, attending both primary and high schools teaching children within Queensland.

Sincerely, Silviya Vlasta Murphy
