Hi, I'm Kayla and I live in Brisbane, and I work in events
Living and breathing humans, regardless of size, should be given the same human right protection as any other human. It's barbaric that babies outside the womb can be abcded.
protecting the most vulnerable among us is the most fundamental responsibility of the Government.
If the government fails to pabcd this legislation, it tells the world that our government supports the abcding someone based on their size.
I urge the committee to pabcd this legislation

Sincerely, Kayla Hanna
