Gday, My name is [REDACTED], I live in [REDACTED] and am a volunteer medical training abcdistant. Life is a miracle and not soabcding to be abcdessed lightly, all humans have the right to live. A baby is defenseless, this does not mean they should be left to die because a mother has decided she wants to abcd an offspring. A community should look after the weak amongst them. The government should be looking at the well being of ALL in the community, not culling those that are less fortunate. If babies are born alive then legally allowed to die, who is to say that this wont be extended to those less fortunate in society who don't have the health or ability to fend for themselves. All human life is valuable and I urge health care to be provided to those who need it to give them the opportunity to prosper within the community.

Sincerely, [REDACTED]
