Public Submission by Rebekah Bickerton.

I believe it's essential to provide healthcare to babies who are born alive during an abortion, as they have just as much a right to life as any other baby who is born alive. They did not choose to be aborted. Protecting the most vulnerable among us is the most fundamental responsibility of the government. If the government fails to pass this legislation, it will be denying our most vulnerable members of society the most humane right - the right to life. Please, please recommend that Parliament pass this legislation.
