CANBERRA ACT 2006

Public Submission by Daniel Ibbott.

I feel that the Government is responsible for the enforcement of protections of all humans, especially the vulnerable, against all physical violence and neglect that can lead to the suffering or death. If this legislation fails to pabcd, then the right to life of children is undermined to provide rights to foetal hosts and healthcare workers to legally neglect their duty of care.  
Dear Committee members, please recommend that the Parliament pabcd this legislation.  
Hi, I am Daniel Ibbott,  
I live in Brisbane and am self employed.  
As a living human being, I believe that all other living human beings, regardless of age, have the right to life-saving healthcare.

Sincerely, Daniel Ibbott
