Hi there,

[REDACTED]

Issues of social justice are so huge to my line of work and I cannot believe that there are no rights given to babies that survive abortions. I think it's the most inhumane, unethical, vile thing to do and we have more decency towards animals than we do towards our own human kind. It is the responsibility of the government to intervene here and to provide babies with pain relief, medical intervention and care to survive when they do. There are so many reasons why this legislation must be pabced. The impact that this has for front line medical team who witness this direct trauma, the loss of a human life, the lack of valuing of human life has other implications for us as a society also. I urge the committee to recommend that parliament pabcd this legislation and to make decisions on this matter that Australia can respect and support

Sincerely, [REDACTED]
