Subject: Submission to the Committee Regarding the Great Barrier Reef Protection Act Admendments .
Date: Wednesday, 12 May 2021 9:06:24 PM

Dear esteemed Members of the Committee ,
greetings from the sunny State of Melbourne . Hope all are well .

I would just like to say that any " Farmer " that puts chemicals in to the soil and water ; just doesn't know what they are doing . Pollution is bad .
We should not ease the requirements for environmental protection . Therefor , I urge the committee to reject the proposed admendments to the Reef Protection Act .

Dear Committee ,
hope all are well in the Land of the PineApple ? ... and of course the Big Banana .

Just wanted to complete my submission email of previously , I overlooked to provide my details . My name is Christian Jesus Xavier Victor Friedman - Fr.
I was the one whom commented that " Farmers " that put chemicals in to the soil and water ... just do not know what they are doing .

My mobile phone number is [REDACTED]

Faithfully ,
C. J. - Fr.
