Submitter Comments:

I do not agree with this bill. The CHO should have no powers or say in regards to declaring any emergencies or health risks. A CHO is not an elected official and in most cases is not a practising medical practitioner. Emergency powers should be scraped and outlawed. They should never be allowed in a democracy and they should never impose "mandates" and "laws" that directly oppose the law of the land including forcing people to show their "papers" for access to society which is a breach of privacy laws and basic discrimination laws. Mandates that FORCE people to inject themselves with experimental medicines which is a breach of the Nuremberg code and the federal laws pertaining to voluntary informed consent. I want to see a bill introduced that makes sure no "emergency" acts are ever allowed in our society again. I will never forget or forgive this government for the use of these bogus emergency powers.
