Submitter Comments:

There is not and has not been a state of emergency in the last 3 years. Hence there is absolutely no need to extend the current emergency powers , and they should be allowed to expire in October. The issuing of the "state of emergency " powers and continuous extension of those powers is nothing more than a blatant power grab by politicians. The exercises of those powers has caused tremendous social, financial and mental harm to Queenslanders, and any member of parliament that ever voted for them or continues to vote for them should hang their head in shame. This must end!
