Submitter Comments:

This government in Queensland has abused its powers against the people of Queensland for long enough. This bill should be debated by all Queenslanders as it affects ALL Queensland's. So far it has been kept secret and only a select few, of whom the public are not informed have been asked to give opinion on it. This action is not democratic, open or accountable and as such should be stopped as should all emergency powers as we all now know the only emergency was for big pharma to make alot of money and government to grab more power from the people.
