Dear Mr Harper

I am writing to you as the Chair of the Health and Environment Committee (the Committee).

I am seeking to draw the Committee's attention to the Dissenting Report to the Inquiry of the *Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2020*. I would like to advise that my evidence was incorrectly cited within the Dissenting Report.

Within this Report, the Member for Mirani stated that I expressed concern over the lack of transparency and transparency by the Queensland Government. The Member further stated that I expressed deep reservations regarding this Bill. As evident within the Transcript of Proceedings, this reflection does not accurately cite the evidence that I provided to the Committee.

I am seeking to have the record corrected to reflect the evidence I provided.

Yours sincerely

Ivan Frkovic
Mental Health Commissioner
