To whom it may concern

I do not support the extension of Expiring Provisions for a further 6 months.

Vaccines will be available from February 2021.

The extension of powers until September 2021 is therefore not necessary.

The original premise underpinning the legislation of 'flattening the curve' has been very successful. The 'curve' has been well and truly 'flattened'.

Any further use of these extraordinary powers is unreasonable and unjustified given the current situation.

The people of Qld deserve to have their previous 'liberty' restored.
