I would simply like to offer my full support for extending the extraordinary powers of the CMO Dr Young. I believe her advice has been outstandingly good. She has protected Qld and her calm competence has instilled confidence.

I commend the Premier for being guided purely by Medical and epidemiological considerations. Despite the best efforts of the Courier Mail, other LNP premiers and the federal government to bully her, she remained resolute and the election result bears out the support she received from ordinary Queenslanders.

I support the amendments to the act and wish Dr Young and the Premier well.

Donna Allen
