Subject: Public Health and other Legislation (Extension of Expiring Provisions) Amendment Bill 2020.

Categories: Submission

To whom this may concern,

I'm writing to formally advise that as an individual I OBJECT to the extension of the above mentioned Bill including all parts, divisions and clauses within this Bill.

As an Australian citizen, eligible voter and a tax-payer I do not believe that in a Parliamentary democracy a non-elected member of the public should have unfettered powers. With all due respect Jeanette Young is a GP with an administration background and not a Scientist.

Kind regards,
Jasmine Harrison
