**To:** Health and Environment Committee  
**Subject:** Public Health and other Legislation (Extension of Expiring Provisions) Amendment Bill 2020.

**Importance:** High

**Categories:** Submission

To whom this may concern,

I OBJECT to the extension of the above bill including all Parts, divisions and clauses within this bill.

I do not believe that in a parliamentary democracy one non elected member of the public should have unfettered powers.

With all due respect Jeanette Young is a GP with an administration background.

Queensland private business can no longer sustain the type of knee jerk lockdown's as witnessed over this last weekend by bureaucrats whose decision's have absolutely no effect on their own livelihood's.

Sincerely  
Mark Yates-Round
