Subject: SUBMISSION AGAINST Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2020

Categories: Submission

Dear sir/madam,

I wish to make a submission against the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2020 and against all these bills of rights flooding in because of this amendment. Too much power has been given to the government because of this amendment and you are destroying the people!

In particular these extensions have created the chance for many directions and attempts at changing legislation that goes against the human rights acts. The right to work, the right to freedom of speech and the right to privacy, the right to choose medical procedures and the right to see their families.... It has completely destroyed small businesses and my right to work has been destroyed. I have been stopped from going into work, stopped from going to see family members and stopped from even going to the shops to purchase basic food items! When will this corruption stop???

It is these extensions that are creating mental health in the people in itself because we are depressed that we have no freedom to do anything except for being controlled for a virus that has at least 99% chance of survival. My family and I cannot cope anymore. Who is responsible for this destruction? The people should have the right to choose whether they

want to work and be with family or stay at home, not be forced to stay at home to destroy our lives.. protect the vulnerable is what we have always done. For such a high recovery rate this is over the top and inhumane!

How can we survive if you destroy our business and our families?

I urge you to STOP these emergency amendments, stop the directions based on little to no science and stop the destruction of Australian people.

Claudette Casey Freeman
