Publication: Making the submission and your name public

Position: I/We do not support the Voluntary Assisted Dying Bill

Comments in relation to: Eligibility criteria* ,Safeguards,Oversight and review

Attachments: No attachment

Submitter Comments:

My concerns about this law is that this is not the way forward in regards to caring more for our elderly. There has not been any push made for more extensive palliative care for our elderly. I just see this bill as an "easy way out" than one willing to address the current issues. I also don't agree that it is fair and right for this vote to be strictly done by QLD politicians and the people do not get to decide. I am also concerned about the abuses that could also potentially be involved in pushing forward this bill. Please, please reconsider this vote.
