Submitter Comments:

I have been diagnosed with Cancer with the possibility that it is Terminal. I have worked as a Registered Nurse/Midwife my whole career and have watched patients have a less than dignified death and in extreme discomfort. Palliative care quality, very much depends on your postcode. I have very strong feelings that we are entitled to control own deaths. The final cycle of human existence. It is very important that Political members of the parties, remember that they are there to vote for their constituents not for themselves..

More than three quarters of surveyed adults believe that we should have access to Voluntary Assisted Dying. I am very disappointed that QLD is so far behind the other states.
