Submitter Comments:

I have seen many public servants make numerous incorrect assumptions followed by mistakes in judgement with unwanted consequences.

I have read reports by medical professionals with evidence of lethal mistakes.

I have witnessed Parliament pass poor laws due to Politicians being inadequately guided by Public Servants which leads to Parliament House conducting a Vote with incorrect outcomes largely due to time constraints and inadequate knowledge to understand the legislative complexity and subsequent ramifications.

Assisted Suicide is one of those Bills placed before the Parliament House that will be rushed by poorly supported Public Servant ideology for the sitting member to pass with undoubtedly long-term bad outcomes of fatal consequences unwanted by numerous silent families left disempowered and in grief.
