Submitter Comments:

I would like to be able to choose to end my life before becoming dependent on anyone or costing the community large amounts of money to continue my life. If I suddenly become mentally incapable of making that choice, I would like my family to be able to make that choice without fear of any consequences.

I have a detailed Health Directive which currently would not be able to be followed legally. I believe that anything that someone has put in a Health Directive should be able to be followed. An appointed attorney should be able to administer the substance.
