Publication: Making the submission and your name public
Position: I/We do not support the Voluntary Assisted Dying Bill
Comments in relation to: Eligibility criteria* ,Administration of the substance,Safeguards
Attachments: No attachment

Submitter Comments:

Dear sir's, Madam's,

While there are 'gray' areas in the medical field of aged care and seriously ill patients, experience from overseas tells of initial legislation opening a door to youth, mental, patients, decisions by relatives, and more. Improved palliative care is required rather than giving the medical practitioners the right to end life . We cross the Almighty's sacred boundaries to our peril and there will be consequences. We already kill babies born alive through abortion.

Perfect little human babies, allowed to die and cast into the rubbish. The mindset of administrators changes over time. Well meaning safeguards are stretched till some see a life of a person, made in the image of God, as little more value than a tadpole in a frog pond.
