Subject: Voluntary Assisted Dying

Dear Parliamentary Committee Members.

My name is Gary Bolton, and I reside in [REDACTED] NQ.

I would like you to know and be aware that I whole heartedly support the current legislation yet to be put before the Queensland Parliament.

I implore each and every one of you to give the people of Queensland the opportunity to go peacefully, without pain, and loss of dignity, by approving the draft legislation in its current format.

This draft legislation is not compulsory on anybody, but gives the individual control over their own suffering.

Thanking you in advance,

Garry Bolton
