Subject: So many problems with VAD Bill

Re: So many problems with VAD Bill

Dear Health and Environment Committee,

Dear Mark

I am deeply troubled by the Voluntary Assisted Dying 2021 Bill.

I have followed the sad progression of so called VAD practices in Europe since their commencement. In all instances they begin with so called adequate safe guards [safe for whom? [deadly for most] and almost immediately there is pressure to widen the scope and be "Kind and inclusive." in some jurisdictions accurate records are no longer kept or rigorously scrutinised and no one knows what is really happening.

Disgrace to humanity to allow this to happen leave alone be party to instigating this practice. Do you consider yourselves qualified or any other human to decide what qualifies as a good or a bad death.

If you think you know, I would recommend you do more reading.

You do not defeat death by your so called authorising of a third party kill someone. Who do you think you are?

Everyone will die and then face the consequences of their life.

We need to make it possible for more tender considerate and loving care to be given to the dying by those beautiful compassionate people called to this work.

I don't think you or I would even make the job interview list. The best we can do is be grateful for these people and encourage them in any way we can.

Yours Sincerely
Warren Bray

Sincerely,
Warren Bray
